

1 **Airspace Allocation and Classes**

Within the FIR and UIR, airspace is divided into four classes C, D, E and G and largely corresponds to the ICAO recommendations. The three other ICAO airspace classes A, B and F, which have also been adopted by Switzerland, are available but currently no part of Swiss airspace has been allocated to these classes. The airspace classes C, D and E are controlled airspace. The airspace allocations are described in the following chapters. Remarks, descriptions and procedures for the individual airspaces within each allocation are to be found in AIP ENR 2.1.

1.1 **Lower limits TMA and AWY**

North of the separation line Central Plateau/Alps the lower limits indicated on the chart apply. South of the separation line Central Plateau/Alps the lower limits indicated on the chart apply or, 1000 ft AGL, depending upon which is greater.

1.2 **General airspace classification**
